- Associates in Architectural Design from Purdue

Tricia Tonagel-Bender

- Over 10 years of experience in Construction and Industrial Safety & Health
- Bachelors in Natural Resources & Environmental Management from Ball State
- Masters in Occupational Safety and Health from Indiana State
- Proficient in USGBC LEED for Homes
- Served over 2 years on the Board of Directors for MICCS (Metro Indianapolis Coalition for Construction Safety)

Aubrey Goodman

- 10+ years as foreman for Bender Construction Company, Inc.
- Over 12 years of experience in construction
- Specialty in concrete, tile and trim

What makes us different from other contractors?

- Personal service throughout the project from Kevin and his foremen.
- Reputation for exceptional craftsmanship.
- Detail oriented management and field staff.
- Our business is primarily based on referrals.
- Communication – you can expect the highest level of communication throughout all phases of the project - planning, execution and follow-up.
- Team approach that encourages the participation of the contractor, owner and architect (when applicable). This synergistic approach results in better communication and creates a smoother design, building, renovation or remodeling process.
- We stand by our work, even after your project is completed.
- We strive to exceed your expectations.

Environmental, Health and Safety

- Full time EHS professional on staff
- EHS program implemented with required and applicable EHS training conducted
- Our crews work in a manner that respects the environment and provides the safest workplace possible for our employees, subcontractors, clients and others who enter or are near our construction sites.

Continuing Education

- We promote and encourage employee continuing education and sponsor such training classes as up to date building practices, installation and uses for new products and leadership skills.

We're covered and so are you

Ever wonder what could happen, from a legal aspect, should a catastrophic incident or injury be sustained while a contractor is working on your project?

With Bender Construction Company, Inc. you don't have to speculate because we provide all of the required liability and workers compensation insurances plus several additional coverages to ensure the property owner, our employees, subcontractors and our company are amply covered.

We provide, at minimum...

- ☑ **Liability insurance**
- ☑ **Workers compensation insurance**
- ☑ **Business automobile coverage**
- ☑ **Equipment coverage**– owned and rented
- ☑ **Excess and umbrella liability**
- ☑ **Installation floater**
- ☑ **Bonding**

Bender Construction Company, Inc. has a current license and bond on file with the Tippecanoe County Board of Commissioners and the cities of Lafayette and West Lafayette. Tippecanoe county and the cities of Lafayette and West Lafayette require that all contractors and subcontractors be bonded.

Bender Construction Company, Inc. complies with all other city and county permitting and bonding requirements outside of Tippecanoe County.

Subcontractors

We require subcontractors to provide us liability and workers compensation insurance certificates annually. So if you have subcontractors on your project through Bender Construction Company, Inc., they too are covered.

GreenBuild
Thermal Imaging

Bender Construction Company now offers residential GreenBuild for new homes utilizing the USGBC LEED for Homes rating system which promotes the design and construction of high-performance green homes. A green home uses less energy, water and natural resources, creates less waste and is healthier and more comfortable for the occupants. GreenBuild can also be incorporated into remodeling and renovation projects.

Bender Construction Company, Inc. is pleased to be the first in the area to offer a new service, Residential Thermal Image Energy Assessments, an inexpensive way to pinpoint energy loss locations in your home. Visit our website for all the details.
